Welcome Home!

Aloha Home & Community Life

At Porter Ranch Aloha, we combine the comfort and convenience of home with around-the-clock dedicated personal care to meet the needs of our residents.

We pride ourselves on maintaining an atmosphere that encourages each individual to remain active, alert, independent, and mentally and physically stimulated.

We offer loving home environments for your elderly family member! Both of our Aloha homes feature bright, spacious private rooms in large, quiet facilities that are beautifully landscaped with fruit trees and flowers. Nutritious, tasty meals are prepared daily from fresh ingredients by our in-house chefs.

We gladly accommodate our residents' unique dietary needs.

Aloha Staff Support

Along with Viola Partridge (Clinical Scientist) and sister, Leilani (RN), Aloha's friendly, supportive staff consists of trained, professional caregivers offering personalized assistance with daily needs, including, bathing, administering medications, providing transportation to and from appointments, facilitating communication with physicians and providing complete housekeeping and laundry services.

Aloha Commitment

As a family owned business, we recognize the importance of maintaining a close relationship with members of our residents' extended family. That's why we guarantee regular assessments of your loved ones condition and well being. At Porter Ranch Aloha, our commitment is to offer our residents the best in 24-hour personal and professional care.

All the comforts of home... Plus dedicated personal care!
